FUEL SURCHARGE CALCULATION

APPLICATION OF PERCENTAGE INCREASE (SEE NOTES A through E)

Less-Than-Truckload (LTL) Truckload (TL) Fuel Surcharge (FSC)

All charges for rates and/or charges named in tariffs, contracts or other agreed pricing provisions making reference to this tariff, are hereby or will on their effective dates be increased as provided below. In applying the provisions of this item, first determine the applicable Line Haul charge including all applicable increases and/or discounts, if any. The line rates will be subject to the percentage increase as provided below.

N	otes:	
Τ.	oics.	

- A. Minimum fuel adjustment charge is subject to a minimum of \$2.00 per shipment.
- B. Truckload fuel surcharge application on volume or truckload shipments are defined as shipments rated as a full truckload or shipments that are at weight capacity or shipments moving under exclusive use rates.
- C. All shipments will be subject to a fuel adjustment (surcharge) based on a weekly fuel price index. The index shall be the Department of Energy's National Average Diesel Fuel Price Index, after 4:00 PM on Monday of each week. Said Index may be ascertained direct from the DOE by calling (202) 586-6966 each Monday afternoon. If Monday falls on a holiday, the index for the next business day that is not a holiday will be used to determine the applicable fuel surcharges. The surcharge for each (Monday through Sunday) will be based on Monday's DOE index of the previous week. The weekly National Average Fuel Average Index for diesel fuel price each Monday will be adjusted on the following Wednesday. When the price of diesel fuel spikes due to natural disasters, terrorist attacks or other conditions out of the control of an American West (AWEST) carrier, AWEST reserves the right to adjust its' fuel surcharge to the appropriate level to offset the increased cost of fuel.
- D. The weekly Department of Energy (DOE) National Average Index for diesel fuel price each Monday (else Tuesday if National holiday) and the Fuel Surcharge Index Table herein shall be used to determine the fuel surcharge to be applied on shipments billed each week. For each increase in the DOE Diesel Fuel Price Index, the fuel surcharge will increase on LTL shipments and on Volume or Truckload shipments. For each decrease in the DOE Diesel Fuel Price Index, the fuel surcharge will decrease on LTL shipments and on Volume or Truckload shipments.
- E. If diesel fuel prices drop below \$2.00 or equal or exceed \$4.01, an updated fuel surcharge table will be issued.
